

REMARKS

This case has been carefully reviewed and analyzed in view of the Official Action dated September 28, 2004.

The Examiner has objected to the drawings because they do not include reference sign(s) mentioned in the description. The specification has been corrected to avoid this objection.

Furthermore, the Examiner has objected to the disclosure because of informalities. The disclosure has been corrected to overcome this objection.

Moreover, the Examiner has objected to claims 2-4 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Further, the Examiner has objected to claims 5 and 6 because of informalities. Claims 2-6 have been amended to overcome these objections.

It is now believed that the subject Patent Application has been placed in condition for examination, and such action is respectfully requested.

Respectfully submitted,
